WORK TO START THIS WEEK ON COUNTY'S VALUATION SURVEY

First work on a property paying more than their share of taxes.

Mr. McMories expressed a willingness to meet with service clubs and with farmers in the community gatherings to explain details of what will be done and what will be accomplished by the valuation survey.

"We want the cooperation of everyone and we have found in the past that when property owners learn that they will be treated fairly, just like everyone else, we meet with little opposition," he said recently.

The county rented the firm office space in the courthouse for \$1500. The County court room will be used. Present at the session Monday were Mr. McMories and L. S. Jacobs but they said probably as many as eight men will be employed after work gets in full swing. In addition, they said, local clerical help will be used.

Under terms of the contract, aerial maps of each farm will be furnished the county. These maps will show the various types of land and land use on the farm. Houses within the various towns in the county will be classified in several categories to place all on a fair, equal basis for tax purposes.

Although other taxing units within the county had previously been asked to take part in the equalization program, the county was sole signer of the contract. Information gained in the survey will be offered to these other groups on a pro rata basis.

Judge Leon Thurman said Monday that one or two districts had indicated they might be interested.

Mr. McMories offered to keep the survey up to date for a sum of \$1200 a year. The commissioners expressed approval of the idea but delayed action until later next year.

NEW CHEVELLE!

BY CHEVROLET

The kind of go—6 or V8—you'd expect from one of Chevy's great highway performers. Come on down and drive it.

The kind of comfort you'd expect in a large interior. Come on down and sit in it.

The kind of fresh styling—inside and out—that makes it the year's smartest surprise. Come on down and stare at it.

Now—Chevy spirit in a new kind of car!

We built this one to do more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines—two sixes and two V8's—with output all the way up to 220 horses*! And if that makes you think this is one frisky car, you've got the right idea.

You've also got a roomy car here. Yet its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park.

With its Full Coil suspension, it's got a ride that reminds you of the Jet-smooth kind the

way it muffles noise and cushions bumps.

And the fine hand of Body by Fisher craftsmen shows up beneath this one's suave good looks, too.

Sound good? There's more. Like the fact that Chevelle comes in three series with eleven models—convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that (and see if this isn't one of the nicest surprises of all) the new Chevelle comes at an easy-to-take price!

**Farm Labor Day
Planned Here
Monday, Dec. 16**

The last Farm Labor Day will be held in Hamlin at the Fireman's Hall, Monday, Dec. 16, according to Kenneth Carman, Farm Placement Representative of the Texas Employment Commission in Abilene.

Carman will be on hand to conduct the Farm Labor Day and will accept orders from farmers and ranchers needing hands and will accept applications from experienced workers seeking this type of work. This is an effort of the Texas Employment Commission to make sure all local workers are utilized in meeting the area labor demand.

Dates for future Farm Labor Days in Hamlin will be announced after the first of the year.

Frank Chapman, police chief, also reported that a white leather jacket turned in to the department. The jacket would probably fit a 14 or 15-year-old boy. The owner may contact the department and give a complete description of the coat.

Canisters for donations to the aid Muscular Dystrophy patients have been placed over town by the Hamlin Volunteer Fire Department.

Muscular Dystrophy is a mysterious disease which progressively invades the voluntary muscles, eventually weakening and disabling its victims to the point where a minor ailment, like a cold, may be fatal. Nothing now known to medical science can arrest its relentless downhill course.

The disease may strike anyone. The greatest majority of its victims are children, and it progresses more rapidly in them than in adults. Only a handful of the stricken children survive to maturity.

The donations placed in the containers will be used for research and aid to clinics and patients.

Jerry Lewis, national chairman, Muscular Dystrophy Association of America, Inc., urges everyone to give. He says, "Please... there is so

little time."

Alan Kowalski whose picture is on display, passed away from this disease last year. He was the national poster boy for two years.

C. L. White, fire chief, said this week that a small donation on the part of everyone would help to fill the canisters to the top. The containers will be picked up around Christmas.

Graded choirs of the First Baptist Church will present a program of Christmas selections at the Sunday evening

worship service this week. Beginner, primary and junior choirs will take part in the program directed by S. L. Tate, music-education director.

BUILDING COMMITTEE STUDYING REMODELING OF LIBRARY

A representative from the Texas State Library, Austin, was in Hamlin recently conferring with Mrs. Joe League, president of the Woman's Forum, sponsors of the Harden Memorial Library.

Lowell L. Lindsey, field consultant, Field Services Division, checked the facilities at the library and told Mrs. League of the assistance available through County funds and through the state office in maintaining the library. A state worker is available to help catalog and update the present books although there are no funds from this source.

The building and property was given to the Woman's Forum about seven years ago by Mrs. D. D. Harden and designated for use as a library.

Mrs. W. O. Wilbanks served as librarian for several years until her resignation this summer. She continued in the position until the end of November.

At the present time a building committee is studying the possibility of converting the structure from a family dwelling and library to a civic center and library.

The Forum building committee is headed by Mrs. E. M. Wilson. Others include Mrs. M. T. York, Mrs. Kenneth Rid-

Anniversary Sun.

Mr. and Mrs. J. P. Bingham will observe their Sixtieth Anniversary with a celebration in the home of their daughter, Mrs. B. W. Niedecken, 951 N. W. First Street, Sunday, Dec. 15, from 2 to 4 p.m.

Friends are invited to call during the openhouse. No invitations are being mailed and the couple has requested that no gifts be sent.

Following their marriage near Roby, the couple lived in Erath County for about six years before moving back to Fisher County.

In 1920 the family moved to their present farm 10 miles south of Hamlin.

All of the children will be present for the anniversary celebration. They are Theran, Dorsey, both of Anson, James of Abilene, Rev. Hardy Birmingham of Big Spring; Mrs. Mattie Lou Rogers of Carlsbad, N. Mex. and Mrs. (Valeta) Niedecken.

Refreshments were served to 12 members and two guests, Mrs. Galey and Linda Sue White.

Commissioners Change Policy on Welfare Program

Jones County commissioners Monday amended their agreement with the state department of public welfare, governing the distribution of surplus foods. The change was necessary to comply with new regulations of the state agency.

Under the new agreement, persons who are certified for supplies can not list a niece,

nephew or grandchild as a dependent. It was pointed out by one of the commissioners that possibly aid for these individuals could be available under the dependent children act through the county welfare office.

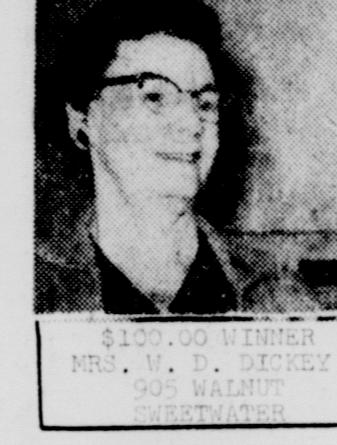

Number of persons receiving surplus commodities at the distribution office in Anson has been at a low point the last two months but is expected to increase rapidly the next week or so, now that farm farm work is about caught up.

Commissioners authorized purchase of medicine for a Hamlin girl who is an arrested tuberculosis patient but turned over to Tom Boyd, commissioner of Precinct 2 a bill from Stamford Memorial Hospital covering medical attention to the wife of a man serving a term in the state penitentiary. Boyd will check details of the bill. It was the expressed opinion that this bill should be turned over to the state welfare department.

FAIRVIEW NEWS

By MRS. ELMER JOINER

Since the Fairview news failed to make it last week, weeks news is a report on the Family Night Thanksgiving supper, at the Oil Mill Guest House. Around 38 people were present with lots of food being served, a nice devotional program being presented, and a good time in general was enjoyed by all.

There has been some moving taking place recently in our community. Week before last Mr. and Mrs. Robert Rhett moved four miles west of Roby, stayed a week and decided they were not happy over there, so Saturday they moved back in our community, to the house on the Gay Fielder place, where Mr. and Mrs. O. L. Jenkins lived until his death, several years ago.

When the Rhett's moved to Roby, Mr. and Mrs. Billy McIlwain, and son, moved from the Prost house to the house occupied by the Rhett's, on the Adams farm.

That is a reminder about the Mel Jones moving to town, their telephone number was changed, and lots of people still call their old one, so for their convenience as well as their friends will say that their new number is SP 4-1395. As the new books came out just before they moved, will be some time before it will be changed, so jot it down.

Mrs. Bill Newland has just returned from Houston, where she went to be with her daughter, Billy Catherine, who had eye surgery. She is reported to be doing well.

Dorothy Gray went to Amarillo last Wednesday, where she will be employed in a beauty shop. This is her first employment since receiving her license recently.

Mrs. Raleigh Bond spent from Monday until Saturday in the Hospital.

Jack Gray also entered the hospital early Friday morning.

State Announces
Draft Quotas

AUSTIN, Nov. 27. — The state draft quota for December calls for 667 men, compared to 868 for November, Colonel Morris S. Schwartz, state Selective Service director, said Wednesday.

Mr. and Mrs. Mel Jones visited his brother, Newman Jones, in Stamford, Sunday afternoon. They reported him as saying he didn't feel so good. He has been ill for some time.

State draft calls, on the rise since August, when 552 men were requested, were much lower earlier in the year. The state quotas in July and June were 349 and 187, respectively.

The state quota of 667 for December is the Texas share of a national call for 13,000 men, all for the Army.

Charles E. Helms
Qualifies with M-1

FORT HOOD, Tex. — Army Sgt. Charles E. Helms, son of Mr. and Mrs. Homer R. T. Helms, Route 3, qualified as expert in firing the M-14 rifle in November at Fort Hood.

Sergeant Helms, a mechanician in Headquarters Company, 2d Brigade, 1st Armored Division at the fort, entered the Army in October 1960.

The 25-year-old soldier attended Hamlin High School.

It is so far from El Paso to Austin, Tex., that an early-day senator traveled with a wagon train for safety against Indians, did not reach Austin until the legislature had met, transacted all its business and adjourned.

 TEXAS PRESS ASSOCIATION

AUSTIN — Gov. John Connally is "back home" in Austin, after a 13-day stay in Parkland Hospital in Dallas. He has had what he termed "amazing" recovery from critical wounds inflicted by President John Kennedy's assassin.

As everybody knows, the governor didn't spend much time being purely a patient. Within a few days he had converted the hospital into a "Little Capitol".

Now the Governor is "officing" in the Mansion, across the street from the big state-government complex. His staff is working out of his business office in the Capitol.

and universities, many commissioners — including older members — were amazed to learn that the state will spend \$112,550 this year to send to out-of-state schools Negro graduate students who, for one reason or another, cannot take their work in Texas col-

SCREWWORM RATE REPORT — Federal and state

animal health authorities reporting on activities for the four weeks ending October 26 indicated a rocketing of the screwworm infestation rate in Texas from 369 samples confirmed as "screwworms" in the preceding four weeks to 1,577 confirmed samples for the report period.

Both had warned that damp fall climates and animal wounds laid open by calving and sharing cause a sharp increase in the incidence of screwworms unless livestock producers exercised extraordinary precautions.

ing October 26, federal and state agencies, together with Southwest Animal Health Research Foundation officials, moved swiftly to combat the screwworms by releasing 347,671,000 sterile screwworm flies below an over-wintering line that extended as far north as Comanche County in Texas.

VOTES CANVASSED — Now it's official:

Poll tax repeal was defeated resoundingly by Texans in a constitutional amendments election on Nov. 9. Only one of four amendments carried.

Vote on poll tax repeal was 316,775 against to 243,120 for in the official canvass announced by Secretary of State Crawford C. Martin.

Only amendment which carried was the increase in welfare assistance payments. The vote here was 330,922 for to 192,050 against.

Proposed increase in the Veterans Land Fund authorization failed 258,433 to 250,556. The Jefferson County retirement, disability and death compensation fund program for public officials was defeated 250,415 to 218,712.

THE COURTS SPEAK — Abilene Christian College is the rightful owner of 41,824 acres in Pecos and Terrell counties, the State Supreme Court agreed.

High court refused to hear the appeal of heirs of the late William M. Edwards from an

adverse ruling by the Court of Civil Appeals in El Paso. Appellate court concluded there was in sufficient evidence supporting a Pecos County jury's verdict that Edwards transferred the land to the college under influence of its agents.

A Houston auto salesman, Charles R. Wilson, has asked the Court of Criminal Appeals to declare Texas' new Sunday closing laws unconstitutional. "It's vague and the title doesn't refer to the penal provision," says Wilson.

NEW APPOINTMENT — Governor Connally appointed Charles S. Coates Sr. of Chapel Hill as Chairman of the State Board of Control, the purchasing and management arm of the state.

The former pipeline execu-

tive, now a Washington County rancher, succeeds L. H. Flewlen of Austin as a board member and replaces E. E. McAdams of Austin as chairman. McAdams remains on the board.

SHORT SNORTS — State offices in Austin now are operating under a complicated Capital Centrex telephone system, which means each phone has a separate number. Audit for the 1963 fiscal year shows that Lamar State College of Technology in Beaumont drew \$2,400,000 of its operating funds from legislative appropriations, while papas and pupils paid close to \$3,000,000. An application has been filed for the Burk Burnett Bank, which wants a State Department of Banking

charter to operate in Burk Burnett, Wichita County. Bob Armstrong of Austin took the oath of office as a member of the Texas House of Representatives. He replaces Jack Ritter Jr. who resigned to run for Congress. Railroad Commission ordered bottom hole location on two Gregg County oil wells operated by Robert Cargill after Continental Oil Company alleged they may be slanted.

Six Stamford Youth Arraigned On Murder Charges

Six Stamford youths were arraigned on charges of murder in 104th District Court at Anson last week before Judge Owen B. Thomas and their

bonds were set at \$5,000 each. The six had been indicted by the grand jury and are now in the county jail at Anson. None has been able to make bond. Sheriff Dave Reves said Monday.

No date for trial has been set.

Charged are Seledonio R. Delgado, 18; Jesse Cedillo, 17; Ramon Cedillo, 17; Joe Lopez, and Raymon Gallardo and John Macias, the latter two juveniles. They were indicted for the alleged murder of Antonio Meza, 55, at a barracks building near the Stamford Coop Gin on Nov. 10.

Abraham Lincoln died in a small brick house opposite Ford's Theatre on Tenth Street in Washington, D. C.

be periodically inspected for proper flame adjustment, rusted vent pipes, obstructed flues and vents.

In the modern air tight house, the danger of carbon monoxide increases when heating units are not functioning properly.

Unvented gas heaters can produce carbon monoxide even when properly adjusted if they lack sufficient air for combustion. Unvented gas heaters should never be used in sleeping quarters, nursing homes, convalescent homes, or any small confined space.

Rooms containing unvented gas heaters should always have an adequate supply of fresh air.

Any abnormal condition such as a smoking stove or the odor of smoke in a living area is a danger signal and should be checked immediately.

All hot water heaters should be vented to the outside, or connected to a working flue, and have an adequate supply of air for combustion.

Lack of fresh air for combustion will cause carbon monoxide to be produced from perfectly adjusted appliances.

All gas heating devices should be vented to the outside or into a working flue.

Thomas Stephens Receives Honor

PHOENIX, Ariz. — Master Sergeant Thomas C. Stephens of Rotan has been decorated with the United States Air Force Commendation Medal here.

Sergeant Stephens was awarded the medal for his meritorious service while serving as an aircraft maintenance supervisor at Beale AFB, California. He now is a recruiter assigned to Detachment 610 in Phoenix.

The sergeant, a graduate of Rotan High School, is the son of Mrs. George W. Wainscott of Rt. 1, Hamlin.

His wife is the former Westaleen Joplin of Rotan.

FALLS TAKE 827 LIVES

The Texas Safety Association reports that falls took 827 lives in Texas last year. Most frequent victims are children under age four and the elderly.

For the senior citizen: pick up small objects on the floor and install grab bars or use rubber mats in bathtubs for safety. For children: make sure your baby is sleeping safely in his bed with the side bars pulled up. Check frequently to see that a baby does not push his head through the bars. Keep playground equipment in good condition for older children.

The sergeant, a graduate of Rotan High School, is the son of Mrs. George W. Wainscott of Rt. 1, Hamlin.

His wife is the former Westaleen Joplin of Rotan.

SEAT BELTS SAVE LIVES

Seat belts are a year around protection for sudden stops or in case of a traffic accident.

The Texas Safety Association reports that the occupant of a car who can remain in his seat in an emergency situation stands a better chance of survival than if he is thrown forward or out.

BE ON THE ALERT FOR PEDESTRIANS

The Texas Safety Association urges all night drivers to keep a sharp look out for pedestrians. With shorter daylight hours, more persons are on the streets after dark, and if they are wearing dark clothing, you may not see them. Be prepared for the sudden appearance of the pedestrian.

NEINDA PHILOSOPHER HAS NEW BANKING IDEA TO MULTIPLY HAPPINESS TWELVE TIMES OVER

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route one comes up with a highly impractical idea this week, his letter reveals.

Dear editor:

Whenever I see something in the paper about newer ideas in banking I always read it, but it always turns out that the new idea is in the techniques, not in the lending practices. They're still based on soundness, which is the main stumbling block for a lot of us.

At any rate, last night I read an article by the president of the American Institute of Banking saying it won't be long before a man will never see his pay check. Instead of mailing it to him, the company will send it to his bank for deposit. Then instead of the man having to get a lot of bills through the mail from the stores where he trades and writes checks for each

one and mail the back the stores will just notify the bank to charge his account with whatever he owes them. This is the same system the government uses to collect withholding taxes.

This would save millions of people the trouble of writing millions of checks every month, reduce the cost of mail service, check handling at the banks, etc.

I have thought this system over and it sounds all right except for one flaw.

It fails to eliminate the monthly bank statement.

If you stop and think how much trouble it is for a bank to make a bank statement for every one of its customers every month, how much it burdens the mail services, etc., you can see that the American Banking Institute ought to be pushing further ahead on its newer ideas.

Years Ago...

FIVE YEARS AGO:

Hamlin High School Pied Piper Band received a first and third rating at the Region II band contests held Saturday at Winters. The band directed by Mac Fullerton was given a first for inspection and a third for marching.

TEN YEARS AGO:

A giant Christmas parade

DECEMBER 12, 1963

in downtown Hamlin opened the holiday season last Friday. Hundreds of pounds of candy was distributed to area kids by Santa Claus.

Total of \$1,022 has been raised in the Jones County TB Seal sale. Hamlin, with sales of \$18150, is leading communities.

FIFTEEN YEARS AGO:

Asa Goodgame, Seth Adams and Joe Ford, stalwarts on the Hamlin High School football squad the past year, have been named to the all-district eleven.

TWENTY-FIVE YEARS AGO:

Several Hamlin Masons are attending the annual sessions of the Grand Lodge of Texas this week at Waco. Among attendants are E. C. Feagan, W. L. Cash, A. H. Abernathy, W. E. Benson, Ira A. Clements, and W. L. Fletcher Jr.

The Christmas spirit is

catching on these days in Hamlin. Local merchants report a good business and holiday decorations are seen on every hand.

THIRTY-FIVE YEARS AGO:

Mrs. W. H. Staton of Waco is here this week looking after her farms south of town.

Herald Editor Bowen Pope and J. C. Randel went to Merkell last Thursday to attend a district meeting of the West Texas Chamber of Commerce.

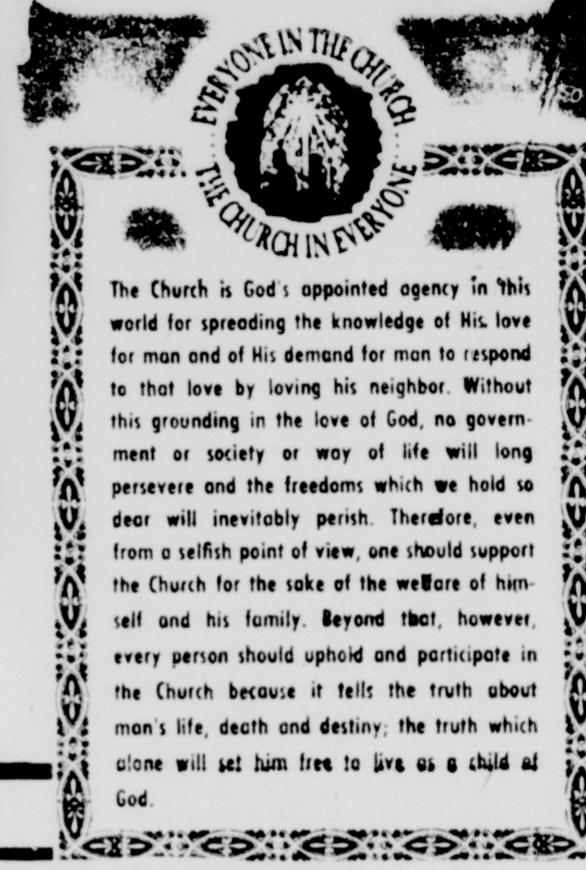

THE SPLENDOR OF THE

Snow

Snow falls and puts a beautiful white blanket over the mountains, and even before this one is gone, others will fall. It will become deeper and deeper until the spring, when it begins to melt and provides life giving waters to many streams. These streams meet with others and become rivers and provide water for irrigation and lakes throughout our land.

Our Lord, Jesus has said that He will give to any that seek Him... "a well of water springing up into everlasting life." — John 4, 14

Attend church Sunday, hear God's word and share in the living waters that only our Saviour can provide.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

NEW CHEVELLE!

BY CHEVROLET

The kind of go—6 or V8—you'd expect from one of Chevy's great highway performers. Come on down and drive it.

The kind of fresh styling—inside and out—that makes it the year's smartest surprise. Come on down and stare at it.

Now—Chevy spirit in a new kind of car!

We built this one to do more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines—two sixes and two V8's—with output all the way up to 220 horses!* And if that makes you think this is one frisky car, you've got the right idea.

You've also got a roomy car here. Yet its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park.

With its Full Coil suspension, it's got a ride that reminds you of the Jet-smooth kind the

way it muffles noise and cushions bumps.

And the fine hand of Body by Fisher craftsmen shows up beneath this one's suave good looks, too.

Sound good? There's more. Like the fact that Chevelle comes in three series with eleven models—convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that (and see if

this isn't one of the nicest surprises of all) the new Chevelle comes at an easy-to-take price!

Like to hear more? The listening's wonderful at your Chevrolet dealer's—and so's the driving.

*Optional at extra cost.

**Fire Department
Sponsoring Drive
For MD Funds Here**

Canisters for donations to the aid Muscular Dystrophy patients have been placed around town by the Hamlin Volunteer Fire Department.

Muscular Dystrophy is a mysterious disease which progressively invades the voluntary muscles, eventually weakening and disabling its victims to the point where a minor ailment, like a cold, may be fatal. Nothing known to medical science can arrest its relentless downhill course.

The disease may strike anyone. The greatest majority of its victims are children, and it progresses more rapidly in them than in adults. Only a handful of the stricken children survive to maturity.

The donations placed in the containers will be used for research and aid to clinics and patients. Jerry Lewis, national chairman Muscular Dystrophy Associations of America, Inc., urges everyone to give. He says, "Please... there is so

little time."

Alan Kowalski whose picture is on display, passed away from this disease last year. He was the national poster boy for two years.

C. L. White, fire chief, said this week that a small donation on the part of everyone would help to fill the canisters to the top. The containers will be picked up around Christmas.

Baptist Choirs

Commissioners
Change Policy on
Welfare Program

Jones County commissioners Monday amended their agreement with the state department of public welfare, governing the distribution of surplus foods. The change was necessary to comply with new regulations of the state agency.

Under the new agreement, persons who are certified for supplies can not list a niece

or nephew or grandchild as a dependent. It was pointed out by one of the commissioners that possibly aid for these individuals could be available under the dependent children act through the county welfare office.

Number of persons receiving surplus commodities at the distribution office in Anson has been at a low point the last two months but is expected to increase rapidly the next week or so, now that farm work is about caught up.

Commissioners authorized purchase of medicine for a Hamlin girl who is an arrested tuberculous patient but turned over to Tom Boyd, commissioner of Precinct 2 a bill from Stamford Memorial Hospital covering medical attention to the wife of a man serving a term in the state penitentiary. Boyd will check details of the bill. It was the expressed opinion that this bill should be turned over to the state welfare department.

WHERE YOUR FAMILY'S MERRY CHRISTMAS BEGINS!

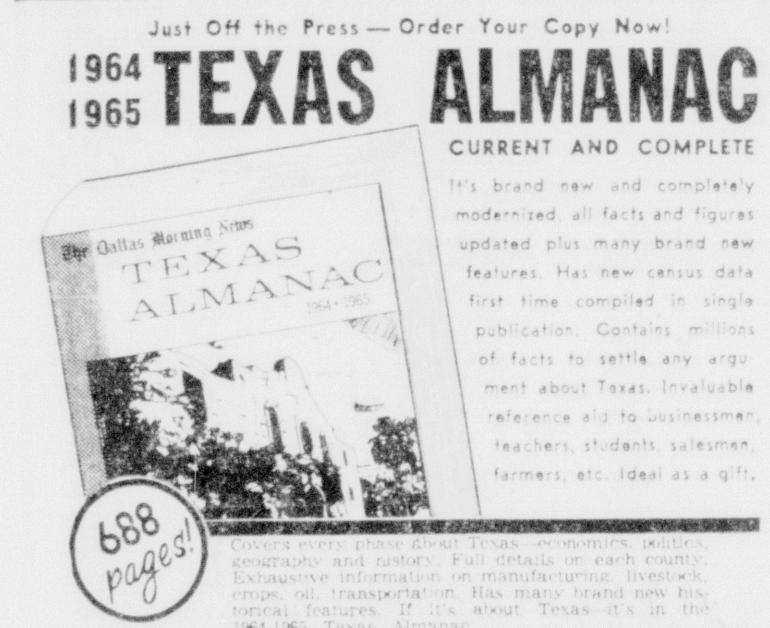

AUSTIN — Gov. John Connally is "back home" in Austin, after a 13-day stay in Parkland Hospital in Dallas. He has had what he termed "amazing" recovery from critical wounds inflicted by President John Kennedy's assassin.

As everybody knows, the governor didn't spend much time being purely a patient. Within a few days he had converted the hospital into a "Little Capitol".

Now the Governor is "officing" in the Mansion, across the street from the big state-government complex. His staff is working out of his business office in the Capitol.

rights are still valued."

LITTLE WHITE HOUSE — A rambling, 13-room stone and frame ranch house 65 miles west of Austin has become the nation's Little White House. Home of new President Lyndon B. Johnson, it was built by his grandfather a century ago.

It is doubtful that President Johnson, who has urged Congress to immediately pass Kennedy's civil rights and tax bills and who faces staggering responsibilities in the months just ahead, will have much time to spend in Texas for a while.

But many of the world's top national and world leaders have come to the quiet banks of the Pedernales River to confer with Johnson in recent years. No doubt he often will return to the family home he loves so well, not only for rest from the cares of his office, but for the planning of tasks ahead.

It's pretty much assured that a great deal of history will be written at the LBJ Ranch.

MAJOR HIGHWAY PLAN ANNOUNCED — State Highway Commission has approved a tremendous new interstate and defense highway construction program, running into hundreds of millions of dollars ... \$136,700,000 to be exact. It's called the "largest work program" in Texas' Highway Department history.

It authorizes purchase of all remaining right-of-way on the 3,033 mile interstate highway system and paves the way for construction of an additional 1,306 miles of interstate highways which crisscross the state.

Chairman Herbert C. Petry Jr. of Carrollton says the plan assures Texas of continued leadership over all other states in miles of interstate highways and completion of its super-highway goal by the 1972 congressional deadline.

BRANCH OFFICE OPENED — Increasing highway right-of-way condemnation work has forced the Texas attorney general's department to open a third "branch office" in Dallas.

Attorney General Carr already has men assigned to Houston and San Antonio to handle condemnation cases for the state. Within the last few weeks he has assigned two to the Dallas area as the expressway building boom grows.

HIGHER EDUCATION — Six newly-appointed members of the 13-member Texas Commission of Higher Education attended their first meeting and not a short course in education. New members are Sam Rayburn Bell of Paris, Joseph A. Chandler of Stephenville, J. C. Looney of Edinburg, Dan C. Williams of Dallas, Charles N. Prothro of Wichita Falls, and Dr. Joaquin G. Cigarroa Jr. of Laredo.

When commission staffers outlined the budget requirements of the agency which guides the 20 state colleges

and universities, many commissioners — including older members — were amazed to learn that the state will spend \$112,550 this year to send to graduate students who, for one reason or another, cannot take their work in Texas col-

leges.

Most of the money goes for the education of Negro dentists and physicians. But some is used for law-school education and the study of veterinary medicine.

SCREWWORM RATE REPORT — Federal and state

animal health authorities re-

porting on activities for the four weeks ending October 26 indicated a rocketing of the screwworm infestation rate in Texas from 369 samples confirmed as "screwworms" in the preceding four weeks to 1,577 confirmed samples for

the report period. The upturn was not a surprise to Dr. John L. Wilbur Jr., of the U. S. Department of Agriculture's Animal Disease Eradication Division or to Dr. R. G. Garrett, director of the Texas Animal Health Commission.

Both had warned that damp fall climates and animal wounds laid open by calving and sharing cause a sharp increase in the incidence of screwworms unless livestock producers exercised extraordinary precautions.

VOTES CANVASSED —

Now it's official!

Poll tax repeal was defeated resoundingly by Texans in a constitutional amendments election on Nov. 9. Only one of four amendments carried.

Vote on poll tax repeal was 316,775 against to 243,120 for in the official canvass announced by Secretary of State Crawford C. Martin.

High court refused to hear the appeal of heirs of the late William M. Edwards from an

Only amendment which carried was the increase in welfare assistance payments. The vote here was 330,922 for to 192,050 against.

Proposed increase in the Veterans Land Fund authorization failed 258,433 to 250,556. The Jefferson County retirement, disability and death compensation fund program for public officials was defeated 250,415 to 218,712.

THE COURTS SPEAK — Abilene Christian College is the rightful owner of 41,824 acres in Pecos and Terrell counties, the State Supreme Court agreed.

High court refused to hear the appeal of heirs of the late William M. Edwards from an

adverse ruling by the Court of Civil Appeals in El Paso. Appellate court concluded there was in sufficient evidence supporting a Pecos County jury's verdict that Edwards transferred the land to the college under influence of its agents.

A Houston auto salesman, Charles R. Wilson, has asked the Court of Criminal Appeals to declare Texas' new Sunday closing laws unconstitutional. "It's vague and the title doesn't refer to the penal provision", says Wilson.

NEW APPOINTMENT — Governor Connally appointed Charles S. Coates Sr. of Chapel Hill as Chairman of the State Board of Control, the purchasing and management arm of the state.

The former pipeline execu-

tive, now a Washington County rancher, succeeds L. H. Flewlen of Austin as a board member and replaces E. E. McAdams of Austin as chairman. McAdams remains on the board. Sheriff Dave Reves said Monday.

No date for trial has been set.

Charged are Seledonio R.

Delgado, 18; Jesse Cedillo, 17; Ramon Cedillo, 17; Joe Lopez, and Raymon Gallegos and John Macias, the latter two juveniles. They were indicted for the alleged murder of Antonio Meza, 55, at a barracks building near the Stamford Coop Gin on Nov. 10.

AUSTIN — During 1962, be periodically inspected for proper flame adjustment, rusted vent pipes, obstructed flues and vents.

In the modern air tight house, the danger of carbon monoxide increases when heating units are not functioning properly.

Unvented gas heaters can produce carbon monoxide even when properly adjusted if they lack sufficient air for combustion. Unvented gas heaters should never be used in sleeping quarters, nursing homes, convalescent homes, or any small confined space.

Rooms containing unvented gas heaters should always have an adequate supply of fresh air.

Any abnormal condition such as a smoking stove or the odor of smoke in a living area is a danger signal and should be checked immediately.

All hot water heaters should be vented to the outside, or connected to a working flue, and have an adequate supply of air for combustion.

Simple precautions can eliminate the danger of carbon monoxide poisoning.

All gas heating devices should be vented to the outside or into a working flue.

Most of these deaths occur between December and February, the result of carbon monoxide.

This gas is colorless and has no odor or smell. There is no certain way of knowing that the gas is present without the use of special testing instruments.

Any combustible material generally used for heating or cooking is potential producer of carbon monoxide. The gas results from incomplete combustion.

No fire completely consumes all of the material used as fuel, whether it is natural gas, butane, wood or kerosene. The amount of carbon monoxide produced can be significantly reduced with precise adjustments of fuel-burning stoves and heaters.

Thomas Stephens Receives Honor

PHOENIX, Ariz. — Master Sergeant Thomas C. Stephens of Rotan has been decorated with the United States Air Force Commendation Medal here.

Sergeant Stephens was awarded the medal for his meritorious service while serving as an aircraft maintenance supervisor at Beale AFB, California. He now is a recruiter assigned to Detachment 610 in Phoenix.

The sergeant, a graduate of Rotan High School, is the son of Mrs. George W. Wainscott of Rt. 1, Hamlin.

His wife is the former Wetzelene Joplin of Rotan.

SEAT BELTS SAVE LIVES

Seat belts are a year around protection for sudden stops or in case of a traffic accident. The Texas Safety Association reports that the occupant of a car who can remain in his seat in an emergency situation stands a better chance of survival than if he is thrown forward or out.

If there is the slightest chance that carbon monoxide is present, either leave the room or provide fresh air circulation.

Never operate a gasoline engine in an unvented garage or shop. Ten minutes operation in a 10 by 30 by eight foot space will produce poisoning symptoms.

BE ON THE ALERT FOR PEDESTRIANS

The Texas Safety Association urges all night drivers to keep a sharp lookout for pedestrians. With shorter daylight hours, more persons are on the streets after dark, and if they are wearing dark clothing, you may not see them. Be prepared for the sudden appearance of the pedestrian.

NEINDA PHILOSOPHER HAS NEW BANKING IDEA TO MULTIPLY HAPPINESS TWELVE TIMES OVER

Editor's note: The Neinda one and mail the back. Philosophers on his Johnson grass farm on Route one comes up with a highly impractical idea this week, his letter reveals.

Dear editor:

Whenever I see something in the paper about newer ideas in banking I always read it, but it always turns out that the new idea is in the techniques, not in the lending practices. They're still based on soundness, which is the main stumbling block for a lot of us.

At any rate, last night I read an article by the president of the American Institute of Banking saying it won't be long before a man will never see his pay check.

Instead of mailing it to him, the company will send it to his bank for deposit. Then instead of the man having to get a lot of bills through the mail from the stores where he trades and writes checks for each

It seems to me it could reduce the cost of the present system twelve times by sending out statements only once a year. Just don't balance anybody's account until the last week in December, after the Christmas spending is over. This way a man would be distressed only once a year instead of every month. You reduce the sinking feeling a man gets when he gets his bank statement by that much and you've multiplied happiness twelve times over.

This would save millions of people the trouble of writing millions of checks every month, reduce the cost of mail service, check handling at the banks, etc.

I have thought this system over and it sounds all right except for one flaw.

It fails to eliminate the monthly bank statement.

If you stop and think how much trouble it is for a bank to make a bank statement for every one of its customers every month, how much it burdens the mail services, etc., you can see that the American Banking Institute ought to be pushing further ahead on its newer ideas.

THE SPLENDOR OF THE SNOW

Snow

Snow falls and puts a beautiful white blanket over the mountains, and even before this one is gone, others will fall. It will become deeper and deeper until the spring, when it begins to melt and provides life giving waters to many streams. These streams meet with others and become rivers and provide water for irrigation and lakes throughout our land.

Our Lord, Jesus has said that He will give to any that seek Him... "a well of water springing up into everlasting life." — John 4, 14

Attend church Sunday, hear God's word and share in the living waters that only our Saviour can provide.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.
